With the competent manpower, aided by 4 factories and modern logistics, we enjoy a 360 degree scale of operation. With the state-of-art plants in Gujarat with the capacity of 25,000 tons of tobaccos annually and the facilities spread over one million sq.ft, we are well equipped to handle Classification, Grading, Processing, Blending and packaging of several metric tons of production per day. We are able to ship orders of any scale in an average of 15 days period. Our dedication in crop development, procurement and production has provided consistently high quality tobaccos for our international customers.

Our advanced machinery and agricultural experts have perpetually proved us to be the pioneer of evolution in the tobacco industry. We were the first in the industry to experiment with the 'Complete Re-drying Plant', a fully automated processing and packaging line in the West of India. Along with the power packed modern logistics, we proudly retain the old school of handpicking method for maintaining the ultimate taste with consistent aroma to the fine tobacco connoisseurs.

We certainly have the profound knowledge of growing tobacco and we ensure optimum utilization of the available high -tech facilities coupled with traditional techniques to perform to consistently sustain the most reliable brand.

BLACK MASTER

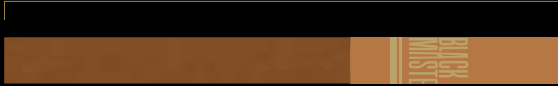

BLACK MASTER IS A UNIQUE RANGE OF LITTLE FLAVOURED CIGARS. LITTLE CIGARS ARE CIGARILLOS MADE OF TOBACCO WRAPPED IN TOBACCO PAPER. THESE ARE SIMILAR IN SIZE, WEIGHT, AND APPEARANCE TO CIGARETTES, HOWEVER DIFFERENCE AS COMPARED TO CIGARETTES IS THAT CIGARETTES ARE WRAPPED IN WHITE PAPER, WHILE LITTLE CIGARS ARE WRAPPED IN TOBACCO PAPER THAT CONTAINS SOME TOBACCO LEAF. GENERALLY, LITTLE CIGARS HAVE A FILTER LIKE A CIGARETTE. LITTLE CIGARS OFTEN COME IN RICH FLAVORS THAT APPEAL TO MASSES.
